Introducing Feng Shui in Malaysia

Kuala Lumpur has been host to countless international meetings and conventions. Other than being a favourite venue for international events, Kuala Lumpur is also synonymous with the practice of Feng Shui, the ancient Chinese metaphysical art of living in harmony with one's environment.

Feng Shui studies how to analyze and direct Qi distribution to benefit all areas of one's life such as career, health, relationship, personal growth, prosperity and business. It is an ancient science proven over the centuries to be effective in manifesting good fortune and prosperity.

Kuala Lumpur is home to many Feng Shui experts, and this is reflected in the design of many successful business premises. We have designed a unique tour not only to introduce the colourful myriad of Malaysian cultures, but also to give a practical exhibition of Feng Shui application within the city's architectural surroundings.

Come and join this tour and catch a glimpse of the ancient Chinese art of Feng Shui today.
